“Your Word is a Lamp to my Feet and Light to my Path”

Liz and Toucee teaching the mothers and children the truth of God’s Word. It is thrilling to see the reaction from some of the mothers and children when we walk into the bush churches as they immediately rush up to Liz and as to see Toucee. The teaching of the truth becomes alive when Toucee starts “squawking” and the children laugh.

The Power of the WORD

Preaching at the national center in Chimoio was a thrilling experience this month especially to see the people receiving the teaching on the POWER OF GOD’S WORD in their lives. **Living the WORD and Being what the WORD says** we are.

Practice what you preach

After the service it was a joy to give to some of the young people an NIV Bible. Challenging them to be what the WORD says they are

New Pastors

New Pastors have been ordained in the Tete Region. We are excited about this, as this region has been weak in leadership numbers for some time. But we thank God that we know have 5 excellent pastors who are committed to working in this region and to see the Apostolic Church established. Pray for Ps. Binda the regional Apostle as he leads this team of Pastors.

Travel North

We travel north again in August. Visiting the regional councils of Zambezi and Tete. We then travel further North to Quelimane to visit our new bush church plant. We leave on the 12th for 10 days. Pray for us as we travel over 2,400 Kilometers and some rough terrain.

Leadership Training Program

Since February we have run 28 courses training the local leaders in the bush churches, with an average of 12 people in each course giving us a total of 336. We have just produced another 256 course books which will cover the months of July – November before the sowing season begins. Since February, 27 people have completed their training courses and have passed their final examinations. This is happening because you are giving and supporting us financially and in prayer. **Thank you**
